company consultancy projects

The Company Consultancy Projects take part over 2 countries and are key elements of the programme that enables students to work with companies on real-life projects focusing on a sector or a specific function. They require significant commitment, focus and teamwork from the students.

We use Company Consultancy Projects at ESCP Europe in two ways: as input for our projects and, at the same time, as a recruitment tool. During the last few years we have carried out Company Consultancy Projects regularly in the areas of marketing, communication strategies and human resources. The quality of the results and the commitment of the students have been excellent - so much so that we hired some of the students involved."

Thomas Riegel
HR Director, L'Oréal Luxury

L'ORÉAL

"Thanks to the heterogeneous composition of the team and its know-how, they did excellent, high quality work. We experienced the team members as competent and constructive consultants who, within a very short time, familiarised themselves with a complex issue. With regard to both form and content, the goals we established were accomplished to our utmost satisfaction."

Juliane Krüger
Employer Branding Manager, Zalando

experiential learning

You will accomplish two Company Consultancy Projects over two countries during the MBA in International Management, which allows you to put into practice the concepts acquired in the classroom and interact with companies on an international level. The projects provide students with collaborative and intercultural work experience on a case provided by a company. In groups of 5-6, students are expected to perform an in-depth analysis and make recommendations for actions that can realistically be implemented by the company.

Students learn how to approach an issue with a critical mindset and how to react swiftly in unexpected situations with a creative and open-minded attitude.

Through the two company consultancy projects, students learn how to work efficiently as a team, and hone their skills in:

- Project planning and management
- Data collection and analysis
- Development of hypotheses and recommendations
- Customer service
- Public speaking and presentations.

Within the framework of the Company Consultancy Projects, dedicated workshops are carried out in:

- Consulting skills
- Research strategy, tools and data sources
- Survey and interview techniques
- Presentation skills.

Throughout the project, tutoring is provided by an ESCP Europe professor and/or an experienced consultant.

Promoting **an entrepreneurial spirit**

ESCP Europe places an increasing value on capturing and nurturing an entrepreneurial spirit: as true for established businesses as for start-ups. Our Chair for Entrepreneurship, created in 2007, was a token of our strong belief that cultivating entrepreneurial spirit is important for all students in all disciplines. In 2018 the **Jean-Baptiste Say Institute** was launched to offer a European academic reference dedicated to entrepreneurial leadership and innovation.

Entrepreneurship courses are included in the MBA in International Management with Entrepreneurship, Creativity and Innovation as a core course in the programme and options to choose Entrepreneurial Marketing and Social Entrepreneurship as electives.

Incubators and accelerators: The School has three 'Blue Factory' incubators in Berlin, Madrid and Paris, as well as an accelerator in Paris. Overall the creation of more than 600 companies was supported since 2007.

Events include real and simulated opportunities for students to pitch their business ideas to panels of investors and experienced entrepreneurs. Highlights are the annual 'Innovation & Entrepreneurship Award' and the 'Made in ESCP Europe' pitching event in Paris. In addition, during the annual Global Entrepreneurs Week, Entrepreneurship Festivals are organised at each of our campuses.

alumni and student testimonials

Ramona Diana Ghica

Class of 2018, Italy

Agency Account Strategist UKI, Google

"If I have to define the MBA in International Management I pursued at ESCP Europe I would use the following words: international, challenging and educative. International as the class has been highly diversified and this gave me exposure to a broad pool of cultures and ways of working, challenging because you are immersed in many activities and you need to prioritise your time and be structured in your daily activities, educative because you have the chance to go deeper into new topics, new approaches to solve business problems and discover also which topic you are looking for? I am working now at the European HQ of Google and I consider that all of these attributes supported me to get where I am today."

Alexis Picot

"During my PhD in Physics applied to Neurosciences, I had the opportunity to develop both soft and hard skills that appear to be very transferable to the corporate world. The MBA in International Management was an amazing opportunity to catalyse all these previously developed skills and boost them, in order to be in tune with the job market requirements. The ESCP Europe MBA in International Management allowed me to further strengthen my experience of the interdisciplinary environment, the capability to adapt to many situations from different aspects of the business world, and fully exploit the potential generated from my scientific work experiences and training."

“

The MBA in International Management has been one gigantic leap outside of my comfort zone and has challenged me in ways that I could never have imagined. I've grown so much as an individual, lived full time in two different countries and expanded my network internationally. Having the ability to improve my language skills and to work in multi-cultural environments has also prepared me for an international career. It has not been easy but it has definitely been worth it. ”
